

Updated Risk Assessments to minimize the risk of being exposed to Covid-19

Gaelscoil Charraig Uí Leighin;

Ghlac an Bord Bainistíochta leis an plean seo ar an 6ú Nollaig 2021.

Methodology used for hazard identification and control

In line with the requirements of Safety, Health and Welfare at Work Act 2005 (section 19) it is the policy of the Board of Management in Gaelscoil Charraig Uí Leighin to address significant hazards and risks in the workplace, to assess the risks to safety, health and welfare and to control these risks as far as is reasonably practicable.

The Board is committed to the ongoing identification of hazards, the assessment of the appropriate risks and the introduction of controls to deal with them. In addition, staff are involved and participate in safety, health and welfare issues within the school and are encouraged to identify and report any potential hazards that may exist and to ensure that a risk assessment is carried out.

This revised Risk Assessment includes all relevant updates and necessary control measures to minimise the risk of staff and others being exposed to Covid-19 and these will be incorporated into the Safety Statement for Gaelscoil Charraig Uí Leighin in line with requirements of section 20 of the 2005 Act.

It is envisaged that additional reviews will be undertaken on a regular basis and in line with Government and public health advice to ensure that all information remains accurate, that controls are appropriate and where necessary risks are reassessed.

A **hazard** is anything with the potential to cause harm to the safety, health or welfare of staff, students, visitors and contractors – a wet or slippery floor, an unguarded machine, stressful work, a blocked entrance, hazardous chemicals etc. Hazards may be classified as physical, chemical, biological, environmental or human.

A **risk** is the likelihood that someone will be harmed by a hazard and the severity of that harm.

Control measures:

A control measure is an applied measure that reduces the level of risk. Control measures can be applied at the planning stage, can comprise physical measures, can be management issues and can include training. Good control measures will require a combination of some or all of these.

Control measure principles:

Schedule 3 of the Safety, Health and Welfare at Work Act 2005 lists the Principles of Prevention and the Board of Management undertakes to apply these principles (where practicable) in dealing with all risks within the school:

- Avoidance of risks
- Evaluation of unavoidable risks
- Combating of risks at source
- Adaptation of work to the individual
- Adaptation of workplace to technical progress
- Replacement of dangerous articles, substances or systems of work by safe or less dangerous articles, substances or systems of work
- Priority to collective protective measures over individual protective measures
- Development of an adequate prevention policy which takes account of technology, organisation of work, working conditions, social factors and the influence of factors relating to the working environment
- Appropriate training and instructions to employees.

When the safety audit identifies hazards, it is necessary to evaluate and rank them so that they can be controlled in an orderly way. The risk of a hazard is a measure of the likelihood or probability of an accident coupled with the severity of the injury or loss. The risk potential of each hazard was assessed (by ranking) by giving numerical values of between 1 and 5 to both the **severity** of the consequences and the **probability** of the event occurring. When the severity numerical factor and the probability numerical factor were multiplied together, they produced a number between 1 and 25 thereby producing the numerical values outlined in **risk rating** chart below.

Severity x Probability = Risk Rating

Severity

Severity Rating	Interpretation	Numerical Value
Fatality or Catastrophic	Single or multiple fatalities, widespread illness, large scale property or equipment damage	5
Major	Serious injury or illness, significant property or equipment damage	4
Moderate	Injury and damage to property	3
Minor	Minor injury or illness, minor property or equipment damage	2
Trivial	No significant injury or illness, no significant property or equipment damage	1

Probability/Likelihood

Probability Rating	Interpretation	Numerical Value
Inevitable	Likely to occur either immediately or in the short term	5
Very Likely	Could occur in time or if repeated enough	4
Likely	Likely to occur	3
Unlikely	Though unlikely, may occur over time	2
Rare	Unlikely to occur at all	1

Risk Rating

Numerical Value Severity x Probability	Descriptive risk rating	Interpretation
16 – 25	<p style="text-align: center;">Emergency – Extremely serious</p> If an incident were to occur, it would be likely that a permanent, debilitating injury or death would result	Risks are unacceptable and immediate action required justifying special maintenance. Activity should be halted and stopped until the hazard is eliminated or appropriate risk controls are put in place.

11 – 15	<p>Severe and Serious</p> <p>If an incident were to occur, it would be likely that an injury requiring medical treatment would result.</p>	Activity can proceed but substantial efforts should be made to reduce the risk. Risk reduction measures should be implemented urgently within a defined time period and it might be necessary to consider suspending or restricting the activity or to apply interim control measures until this has been completed.
6 – 10	<p>Medium</p> <p>If an incident were to occur, there would be some chance that an injury requiring First Aid treatment would result</p>	Activity can proceed but consideration should be given as to whether the risks can be lowered. Control measures must be monitored and reviewed as required to ensure they remain suitable and sufficient.
1 – 5	<p>Trivial or Negligible</p> <p>If an incident were to occur, there would be little likelihood that an injury would result</p>	No additional controls are necessary as these risks are considered acceptable. Activity should be regularly reviewed to ensure there is no change to the risk rating and that controls are maintained.

***Note:** A numerical rating has been used in column 4 of the risk assessment sheets to describe the risk potential for the hazard identified This method has been used in an attempt to ensure that the levels of risk will be understood and clear to all those operating within the school.

Who may be affected?	Identified Risks	Risk Communication, Education and Training Controls	Risk Rating with controls	Action implementation
----------------------	------------------	--	---------------------------	-----------------------

<p>Staff</p>	<p>Spread of Covid-19 virus</p> <p>Persons currently deemed most at risk of complications if they catch the coronavirus are:</p> <ul style="list-style-type: none"> • 60 years of age and over • have long-term medical conditions – i.e. heart disease, lung disease, high blood pressure, diabetes or cancer • pregnant women <p>Known effects of the coronavirus:</p> <ul style="list-style-type: none"> • A fever (high temperature of 37.5 degrees Celsius or above) • A cough - this can be any kind of cough, not just a dry cough • Shortness of breath or breathing difficulties • Loss of sense of smell • Loss of sense of taste or distortion of sense of taste • Death 	<p>The Board of Management will develop a response plan for the prevention and mitigation of Covid-19 following a risk assessment of the school facility. This plan will highlight the measures necessary to protect the health and safety of staff in re-opening and modifying the work arrangements within the school. Covid Response Plan and Risk Assessment updated December 2021.</p> <p>The staff representative(s) will be properly consulted when developing and implementing the action plan for the prevention and mitigation of Covid-19 within the school and all staff will be informed about the measures being introduced, using specific risk communication and staff engagement approaches.</p> <p>The Board of Management will:</p> <ul style="list-style-type: none"> ✓ Ensure that all staff receive necessary training prior to returning to work ✓ Ensure all staff complete a Return to Work form ✓ Ensure all staff to consider if room ventilation especially in classrooms can be improved without causing discomfort and the opening of doors and windows should be encouraged to increase natural ventilation. ✓ Will ensure all staff will receive a copy of “Practical Steps for the Deployment of Good Ventilation Practices in Schools V2 ✓ Ensure all staff are aware that face coverings are to be worn at all times when in a room with children or when in contact with another person ✓ Provide posters, information and electronic message boards to increase awareness of Covid-19 among staff and pupils ✓ Promote safe individual practices within the school campus ✓ Engage with staff in providing feedback on the preventive measures and their effectiveness ✓ Provide regular information about the risk of Covid-19 using official sources, such as government agencies (HSE, HSA, etc.) and the World Health Organisation ✓ Emphasise the effectiveness of adopting protective measures especially good personal hygiene 	<p>Negligible</p>	<p>Board of Management Principal Staff</p>
---------------------	--	---	-------------------	--

✓ Provide specific training in the proper use of PPE for staff, where required

Risk Level Calculation

(a) Severity of risk/injury 1=trivial, 2=slight, 3=moderate, 4=major, 5=fatality
(b) Likelihood of event 1=rare, 2=unlikely, 3=likely, 4=very likely, 5=inevitable
(c) Risk Rating = (a) X (b)

Risk Level Action

1-5 Trivial risk Acceptable
6-10 Medium risk Requires monitoring
11-15 Severe risk Requires immediate further action and control
16-25 Emergency risk Halt activity and review immediately

Who may be affected?	Identified Risks	Face Coverings	Risk Rating with controls	Action implementation
		Controls		
<p style="text-align: center;">Children 3rd class and above</p>	<p>To prevent the spread of Covid-19 virus. Public Health have recommended that pupils in 3rd to 6th class wear a face mask while attending primary school.</p> <p>Known effects of the coronavirus:</p> <ul style="list-style-type: none"> • A fever (high temperature of 37.5 degrees Celsius or above) • A cough - this can be any kind of cough, not just a dry cough • Shortness of breath or breathing difficulties • Loss of sense of smell • Loss of sense of taste or distortion of sense of taste • Death 	<p>The National Public Health Team has recommended the wearing of face masks by children 3rd and above in primary schools. This measure is in response to the very high numbers in older primary school- age children and was considered by NPHE as proportionate to the current level of risk posed by COVID-19. It has advised this measure being introduced on a temporary basis and is subject for review mid-February 2022.</p> <p>This is a temporary public health measure, in the interest of protecting children and school staff and school community.</p> <p>What is the procedure where a child presents without a face mask?</p> <p>Where issues arise, schools will engage pragmatically and sensitively with parents to explore any particular difficulties arising for an individual child.</p> <p>It is generally accepted by the school community that rules put in place to protect the health and safety of the school community should be followed. Every effort should be made to clearly communicate the public health reasons behind the wearing of a face mask/covering. Face masks/coverings protect both the wearer and others around them. Cloth face masks/coverings are more effective than visors. In the limited circumstances where a cloth face mask/covering cannot be worn, clear visors may be considered. Parents are encouraged to work with schools in a spirit of partnership and co-operation to ensure the safety of the whole school community. In implementing the public health measure, it is not intended that any child will be excluded by the school in the first instance. A solution-focused engagement between the school and the child's parents /guardians should take place with a view to resolving issues that may arise.</p> <p>The Department will engage with schools to offer guidance and support to reassure parents and to help schools resolve any issues. Where significant issues have not been resolved locally, contact should be made with the Department's COVID-19 support by email Covid19_alert@education.gov.ie or telephone 057 9324461 and an Inspector will provide further support. These measures have been implemented successfully at post-primary since September 2020 and it is envisaged that they will operate successfully with the support of school communities in the primary school setting.</p> <p>Do children who may have a difficulty wearing a face mask/covering require a medical certificate?</p> <p>The following categories of children are exempt on medical grounds from wearing face masks/coverings; the categories include:</p> <ul style="list-style-type: none"> • any pupil with difficulty breathing or other relevant medical conditions • any pupil who is unable to remove the cloth face mask/covering or visor 	<p>Requires monitoring</p>	<p>Board of Management Principal Staff</p>

		<p>without assistance • any pupil who has special needs and who may feel upset or very uncomfortable wearing the cloth face mask/covering or visor, for example pupils with intellectual or developmental disabilities, mental health conditions, sensory concerns or tactile sensitivity. It should also be noted that where a school is aware, having consulted with the parent/guardian that a child's needs are such that mask-wearing is not appropriate, no medical certification is needed.</p> <p>Do pupils with a hearing impairment require adjusted arrangements to facilitate lip reading? It is important to facilitate pupils who rely on lip reading as a means of communication. For example, visors should be considered where face masks/coverings present an impediment to communication for pupils with a hearing impairment. Schools are asked to use their judgement in such cases.</p> <p>Wearing face masks/coverings – good practice guide</p> <p><u>Should pupils have breaks from wearing face masks/coverings?</u> It is recognised that wearing a face mask/covering for long durations can be challenging for young children. The school will arrange regular breaks and facilitate children taking a break outdoors where possible.</p> <p><u>Do pupils have to wear face masks/coverings while outdoors?</u> No, it is not necessary for pupils to wear face masks/coverings outdoors.</p> <p><u>Should pupils wear a face mask/covering while sitting at their desks for lunch or taking a drink during class?</u> Pupils do not have to wear a face mask/covering while eating their lunch at their desks or taking a drink during class.</p> <p><u>What is the position in instances of mixed classes (3rd class and 2nd class)?</u> In instances where classes are mixed, and such a class comprises of pupils in 3rd class and 2nd class or a lower class, only pupils in 3rd class are required to wear face masks/coverings.</p> <p><u>What is the position for children using school transport?</u> The guidance above applies to pupils from 3rd class and higher classes on the school transport scheme also.</p> <p><u>Notwithstanding the requirement for wearing face masks/coverings what is the key message to keep schools safe?</u> The wearing of a face mask/covering does not negate the vital message that children who have symptoms should not attend school.</p>

Who may be affected?	Identified Risks	Singing, Instrumental music, Handling books PE equipment and other resources during Covid-19 Controls	Risk Rating with controls	Action implementation
Staff (particularly SNAs, school secretaries and school book rental co-ordinator)	<p>Spread of Covid-19 virus</p> <p>Persons currently deemed most at risk of complications if they catch the coronavirus are:</p> <ul style="list-style-type: none"> • 60 years of age and over • have long-term medical conditions – i.e. heart disease, lung disease, high blood pressure, diabetes or cancer • pregnant women <p>Known effects of the coronavirus:</p> <ul style="list-style-type: none"> • A fever (high temperature of 37.5 degrees Celsius or above) • A cough - this can be any kind of cough, not just a dry cough • Shortness of breath or breathing difficulties • Loss of sense of smell • Loss of sense of taste or distortion of sense of taste • Death 	<p>The Board of Management has to prepare for the return of school books (book rental scheme) and other resource materials (including IT equipment) so that these will be available to pupils for the start of the new school year. The following guidelines are recommended for staff when receiving or assisting in compiling resource packs, using PE equipment, singing and instrumental music in the classroom</p> <ul style="list-style-type: none"> • Maintain physical distancing (currently 2 meters) • Observe good hygiene (hand washing and respiratory etiquette, do not touch your eyes, nose, mouth with unwashed hands, etc.) before and after handling books and other materials returned to the school • Follow the agreed school protocols if you are displaying symptoms of Covid-19 • Any books or other items (resource packs, computers, etc.) it is recommended that they are covered in a plastic wipeable covering and cleaned in between use. • Hands should be washed in line with relevant guidance • All children and teachers/SNA's are to sanitize their hands directly before and after use of any PE equipment • PE to take place outside as much as possible, it is not necessary for pupils to wear a face mask while engaged in P.E. Indoor spaces should be well ventilated. • Sharing of PE equipment is to be kept to a minimum and sanitized after each class use. • Singing is allowed indoors with adequate ventilation. Children do not need to wear face coverings while singing. Pupils should remain in their pods and be socially distant while singing. • Ceolchoirm na Nollag is not permitted at present. • Feadóg stáin is allowed indoors with adequate ventilation. • If singing and/or feadóg stáin are to take place it is advised to do so immediately before páistí go home or immediately before breaktime. Time spent on these activities are to be reduced. It is not necessary for pupils to wear a face mask while playing a musical instrument. Pupils should remain in their pods and be socially distant while engaged in this activity. The space should be well ventilated. • Maximum ventilation in place in the classroom during and after singing and instrumental playing • Singing is an accepted teaching methodology in Gaelscoil Charraig Uí Leighin and is an integral part of the curriculum. It is therefore deemed necessary especially in the younger classes. 	Requires monitoring	Board of Management Principal Staff
